

Overview

Your Revit project can be exported to Akolades to create projects with individual quotes with pricing. These quotes can be submitted as order. Click the links below to navigate to a specific step, or use the 'Next' on the bottom right of the screen to read sequentially.

Here's an overview of the process:

Step 1: [Create a Schedule within your Revit Project](#)

Step 2: [Export Schedule From Revit](#)

Step 3: [Upload Your Schedule to Akolades](#)

Step 4: [Create Project in Akolades using a Revit Schedule](#)

Step 5: [Attach Documents](#)

Step 6: [Adjust Quotes in Akolades](#)

Revision #12
